SUMMARY

Results-driven graduate engineer with a strong foundation in Software Engineering, Data Structures & Algorithms, and System Design, specializing in Full-Stack Development with Python and React. Skilled in building and deploying REST APIs and AI/ML solutions spanning Machine Learning, Deep Learning, NLP, and Computer Vision, with hands-on exposure to cloud-based model deployment and MLOps workflows.

EDUCATION

Dr. Ambedkar Institute of Technology <i>Master of Computer Application (CGPA: 8.95)</i>	Bengaluru, Karnataka 2024 – 2026
Karnataka University <i>Bachelor of Computer Application (CGPA: 8.5)</i>	Dharwad, Karnataka 2021 – 2024
Morarji Desai PU Science College <i>Pre-University in Science (92.16%)</i>	Savanur, Karnataka 2019 – 2021

EXPERIENCE

Full Stack Developer Intern <i>Haegl Technologies Pvt. Ltd.</i>	Apr 2024 – Jul 2024 Dharwad, Karnataka
- Built frontend components, integrated REST APIs, and contributed to improving overall system functionality. - Worked with Python, Django, HTML, CSS, MySQL, and Git to implement production-level features.	

PROJECTS

Music Streaming Service <i>Python, Django, MySQL</i>	July 2024
- Developed a full-stack music platform allowing users to browse, stream audio, and manage playlists. - Implemented an intuitive UI with an in-browser audio player and optimized metadata storage in MySQL.	
Leave Management System <i>Python, Django, SQLite, Bootstrap 5, HTML5/CSS3</i>	Jan 2026
- Live: leave-management1.onrender.com github.com/Basavaraj607/Leave_Management1 (34 commits) - Designed and built a production-deployed, role-based web application from scratch supporting Employee, Manager, and Admin roles – with leave application workflows, approval/rejection logic, balance tracking (Casual, Sick, Earned), and a team calendar view.	
Card Followup SaaS <i>React, Vite, TypeScript</i>	Aug 2026
- Capture business card images via camera or file upload with client-side image compression. - OCR pipeline using Tesseract.js to extract raw text from card images. - AI parser to identify and structure name, email, phone, company, and notes. - Auth and persistent contact storage integrated with Supabase. Tech: React Vite TypeScript Tesseract.js Supabase Tailwind CSS TanStack Query	

TECHNICAL SKILLS

Languages: Python, C , Java (Basics)
Frameworks: Django, REST APIs, Pygame
Web: React ,HTML/CSS, JavaScript
Developer Tools: Git, VS Code, Jupyter Notebook , Playwright
Databases: MySQL, SQLite ,PostgreSQL

LEADERSHIP / EXTRACURRICULAR

Student Secretary <i>Karnataka Science College</i>	2021 – 2024 Dharwad, Karnataka
- Led organization of inter-college events with participation of 100+ students. - Organized badminton and chess tournaments including registrations and scheduling. - Managed a 30-member student committee and collaborated with faculty for successful event execution.	
University Chess Team Member <i>Karnataka University</i>	2023 – 2024 Dharwad, Karnataka
State-level chess player – secured 2nd place twice in university-level tournaments.
